INTRO DUCTION

Hello I'm Theodore ☺.
I'm a visual artist living and creating work in
Cape Town, South Africa.

My passion for the industry has me
engaging with content on many levels. Not
only working with my agency Hero to create
photography but also on my various social
platforms to just be silly and tap into my
passion for music.

It's quite simple. I love to bring an energy to
my work that results in images that live and
breath with expression.

I'm grateful to do what I love and have a
collection of special clients that I now hope
to welcome you to.... See you on set.
